WORK EXPERIENCE

Keyloop, Reading − *Full Stack Web Developer*   Jan 2021 − Present

- Migrated the legacy codebase into microservices managed web application using modern tech-stacks such as React, Node, and PostgreSQL for great user experience and user interface. Also, ensuring scalability, and maintainability.
- Led the implementation of a third-party AI-powered knowledge search base articles provider (Coveo), allowing the users to search and filter the relevant articles of their choice.
- Led the implementation of a web app internationalize for our international clients for great user experience and to interact with the app in their native language.
- Implemented various types of graphs using React ECharts which has helped customers for better data visualization and in generating a report.
- Implemented an impersonate user feature for admin/support users, which is very beneficial for them to visualize and understand the problems when a customer makes a complaint in an application. This helps to resolve the customer's issue faster.
- Providing technical support to the support team in resolving any issues related to customer web applications.
- Be the technical point of contact and take ownership in the absence of the manager and senior developer.
- Run daily stand-up meetings and go through the team's Sprint board in the absence of the manager in order to track the progress of the project.
- Work closely with product owners and implement requested features to meet the demand of business needs.
- Collaborate with the UI/UX team in implementing designs and ensuring great user experience.

Tata Consultancy Services (TCS), London – *Software Engineer*   **Dec 2019 – Nov 2020**

- Exposure to client and server-side scripting in JavaScript and ServiceNow APIs.

EDUCATION

MSc Computer Science (Merit 67.5%), University of Birmingham   **Sept 2018 – Sept 2019**

Dissertation – *Expense Tracker: Personal Financial Management iOS Application using React Native Framework.* *https://github.com/Rabin88/Expenses-Tracker-App*
